

I DO NOT support SB 1076. This is a total infringement on our rights as citizens and WILL DO NOTHING to prevent tragedies in the future. To me, most of this bill is just a way to raise revenue.

AGAINST: Yearly registration of firearms. This is total nonsense

AGAINST: A registration card to purchase ammunition. (same as above)

AGAINST: Banning, so called "assault" weapons. All this does and essentially this entire bill is give more power to the criminals, making the law abiding citizen a lamb being led to the slaughter.

Would this have prevented the Newtown tragedy...NO. This was caused by a psychopath who if he could not have gained access to his mother's weapon, probably would have found another means to exact his dastardly deed. After all, he performed research on the internet, he could have researched how to make explosives.

What I would support:

Universal background checks

Background checks at gun shows

Thank you for your time
